WORKFORCE SYSTEM

# EMPOWER YOUR DRIVERS

*"TCW is a 24/7 operation and the utilization of the Infinit-I Workforce System has provided us the opportunity to communicate important company and industry information to our employees on their schedule. All new employees are trained using the system and this has resulted in reducing our orientation classroom time by 50%. Creating custom content, we are able to add our company flavor to our training. We are very pleased with our decision to incorporate the Infinit-I Workforce System as a key component of our training culture."*
