

SIGHT WORDS

know

after

could

every

going

I know how to read.

I read after I brush my teeth.

If I could read every day, I would.

I could read to know more words.

I will read Splat the Cat again after I know where it is at.

If I could play all day, I know it would be fun.

I like going to play after I do my school work.

I know how to play.

I am going to know more every day after my school is done.
